

QUANTA OF MEANING

WE MAKE AI UNDERSTAND AND THINK LIKE A PERSON  
(LIKE YOU!).

ACTUAL PROBLEM:

Gen AI is dumb, it  
“lies”, kill people and  
cause accidents.

Its only an inference algorithm, righth? (this means it can not go beyond.  
“ducks don't fly in the space”).

# REAL PROBLEM... \$2B IN LOSSES IN 2024

- 97% OF FORTUNE 500 COMPANIES CANNOT USE AI FOR SERIOUS THINGS BECAUSE: IT IS NOT RELIABLE, IT IS NOT ACCURATE AND IT DOES NOT WORK IN CRITICAL SITUATIONS AND IN THE COMPLEXITY OF THE REAL BUSINESS WORLD. IT "HALLUCINATES", "LIES", DOES NOT PROCESS LONG DOCUMENTS AND MERELY SAYS "SORRY...".
- AI-DRIVEN CARS CRASH (400+ ACCIDENTS, \$400M IN LOSSES) AND KILL PEOPLE (14 DEATHS), BECAUSE THEY CANNOT "UNDERSTAND" NEW SITUATIONS OR ADAPT TO THEM.
- FOR 3 YEARS, ALL THE INVOLVED COMPANIES CONCERNED SAID, "IT'S ALREADY HERE!". ONLY THIS YEAR THE NOT SO DIRECTLY INVOLVED ONES GAVE UP AND ACCEPTED THAT "THE EMPEROR IS NAKED!".

# THE VALUE OF THE ACTUAL PROBLEM:

- \$2B: PROJECTED ENTERPRISES LOSSES IN 2024 DUE TO GEN AI ERRORS.
- >\$400M: IN ACCIDENTS DUE TO AUTONOMOUS CARS.
- >12 KILLED PEOPLE DUE TO AUTONOMOUS CARS.
- 200M OF PEOPLE WANTING ERROR-FREE AI.
- 97% OF FORTUNE 500 COMPANIES NEED THE SOLUTION OFFERED BY OUR STARTUP.

**ALL THIS PROBLEMS ARE SOLVED WITH OUR EXTRACTION OF MEANING FROM ANY LLM INFERENCE AND BIT STREAMS.**

**FOR GEN-AI ENTERPRISES, TO USE OUR API TRANSLATE IN MORE THAN \$150B PER YEAR IN EXTRA INCOMES.**

QOM SOLUTION:

**QOM API + LLM = SMART LLM.**

(HALLUCINATION-FREE + BIAS-FREE + COMMON SENSE)

**QOM API + AUTONOMOUS MACHINE = SAFE MACHINE.**

(MACHINE ABLE TO ADAPT IN REAL TIME TO NEW SITUATIONS)

## OUR SOLUTION:

Transforming LLMs into genuinely smart ones with a meaning extraction engine for AI responses. .

THE HOLY GRAIL OF AI, LONG SOUGHT FOR OVER 70 YEARS: "HOW TO MAKE A MACHINE UNDERSTAND LIKE A PERSON?". WE SOLVED IT WITH THE **PHYSICS OF UNDERSTANDING!** HOW DOES A PERSON UNDERSTAND? WHY? WHAT HAPPENS? HOW DOES IT CHANGE?...

TRANSLATED INTO ALGORITHMS, IT PRODUCED OUR PROPRIETARY TECHNOLOGY: "**NATURAL MEANING PROCESSING**" (NMP). **OUR TECH ALLOW US TO EXTRACT MEANING FROM ANY BIT STREAM, LIKE A LLM INFERENCE**, ALLOWING A MACHINE TO UNDERSTAND AND THINK LIKE A PERSON.

... instead, a starship can fly perfectly well in space, reach the moon, Mars, anywhere.

## WITH OUR SOLUTION, THE GEN AI...

CAN INTEGRATE WITH OUR APIS AND OVERCOME THEIR HALLUCINATIONS, BIASES AND LACK OF COMMON SENSE WITH OUR REAL TIME MEANING EXTRACTION.

(THEY BECOME **SMART!** AND ABLE TO WORK WITH COMPLEX REAL BUSINESS SITUATIONS).

THIS MEANS: SMART GITHUB COPILOT, SMART PERPLEXITY, SMART MICROSOFT OFFICE COPILOT, SMART GOOGLE SEARCH ASSISTANT, SMART OPENAI CHATGTP ASSISTANT,... FOR THEM: 20-50% MORE INCOME. 30-100% MORE USERS. (>\$150B EXTRA PER YEAR)

Example: <https://truthtalker.ai>

## ALSO WITH OUR SOLUTION:

**AUTONOMOUS CARS BECOME SAFE.** THEY CAN ADAPT TO NEW AND UNEXPECTED SITUATIONS WITHOUT PRIOR TRAINING BECAUSE THEY NOW **UNDERSTAND** THE MEANING OF THE SITUATION.

IT IS POSSIBLE TO DEVELOP A WHOLE NEW SET OF PRODUCTS BASED ON AN AI THAT UNDERSTANDS LIKE A PERSON: FROM REAL-TIME DETECTION OF FAKE NEWS USING ONLY MEANING, TO A **SAFE AGI AND SI** BY INCLUDING OUR MODULES OF THINKING AND GOING "BEYOND".

## Generative AI

## QOM Natural Meaning Processing

It's wrong 1 out of 5 times (hallucinations and biases).

No mistakes.  
No hallucinations.  
No bias.

100% of Truthfulness.

Blocked in new situations.

Analyze everything from the meaning (like you). (AI cars need it)

It cannot explain their answer selection.

100% explainability.

Training a LLM model costs \$6MU

Zero U\$. No new LLM trainings are required. Coupling to the QOM API solves the particular fallencies of each LLM.

Uses GPU

QOM models can run in RAM (40% cheaper)

Needs your data to function

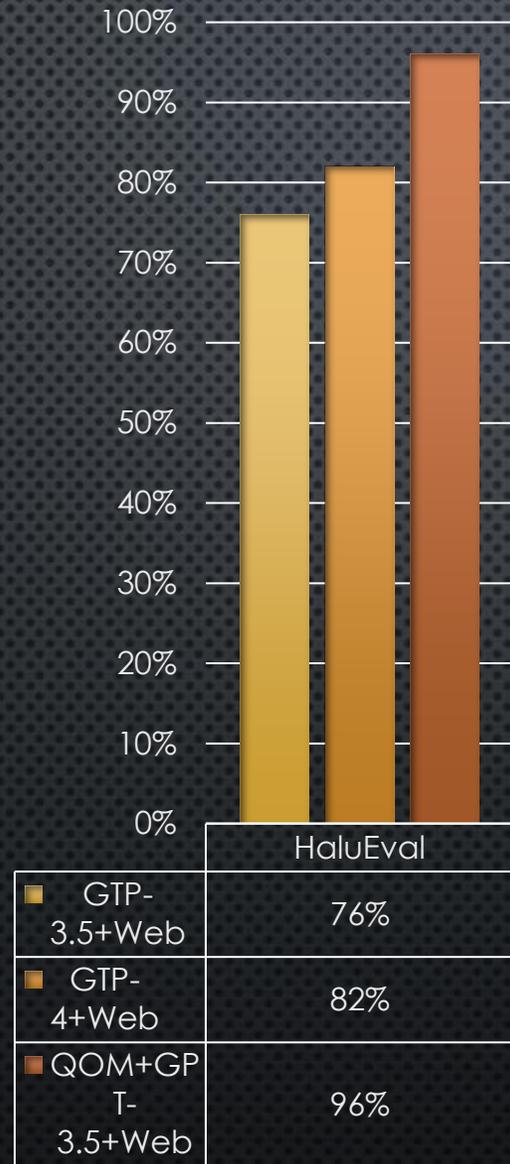

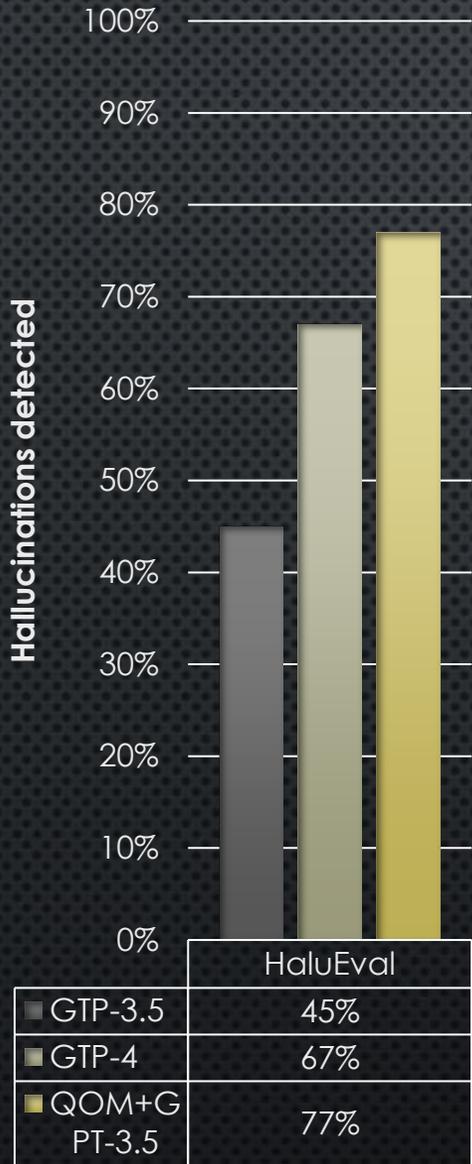

It don't need. QOM deduce from the existents. It respects privacy, copyright and complies with European regulations.

# SOLUTION:

## DIFFERENCES BETWEEN QOM NMP AND THE LLM TECHNOLOGY

**(For a better understanding):**

**QOM paradigm is the "Holy Grail" of AI**

## DEMOSTRATION (scores):

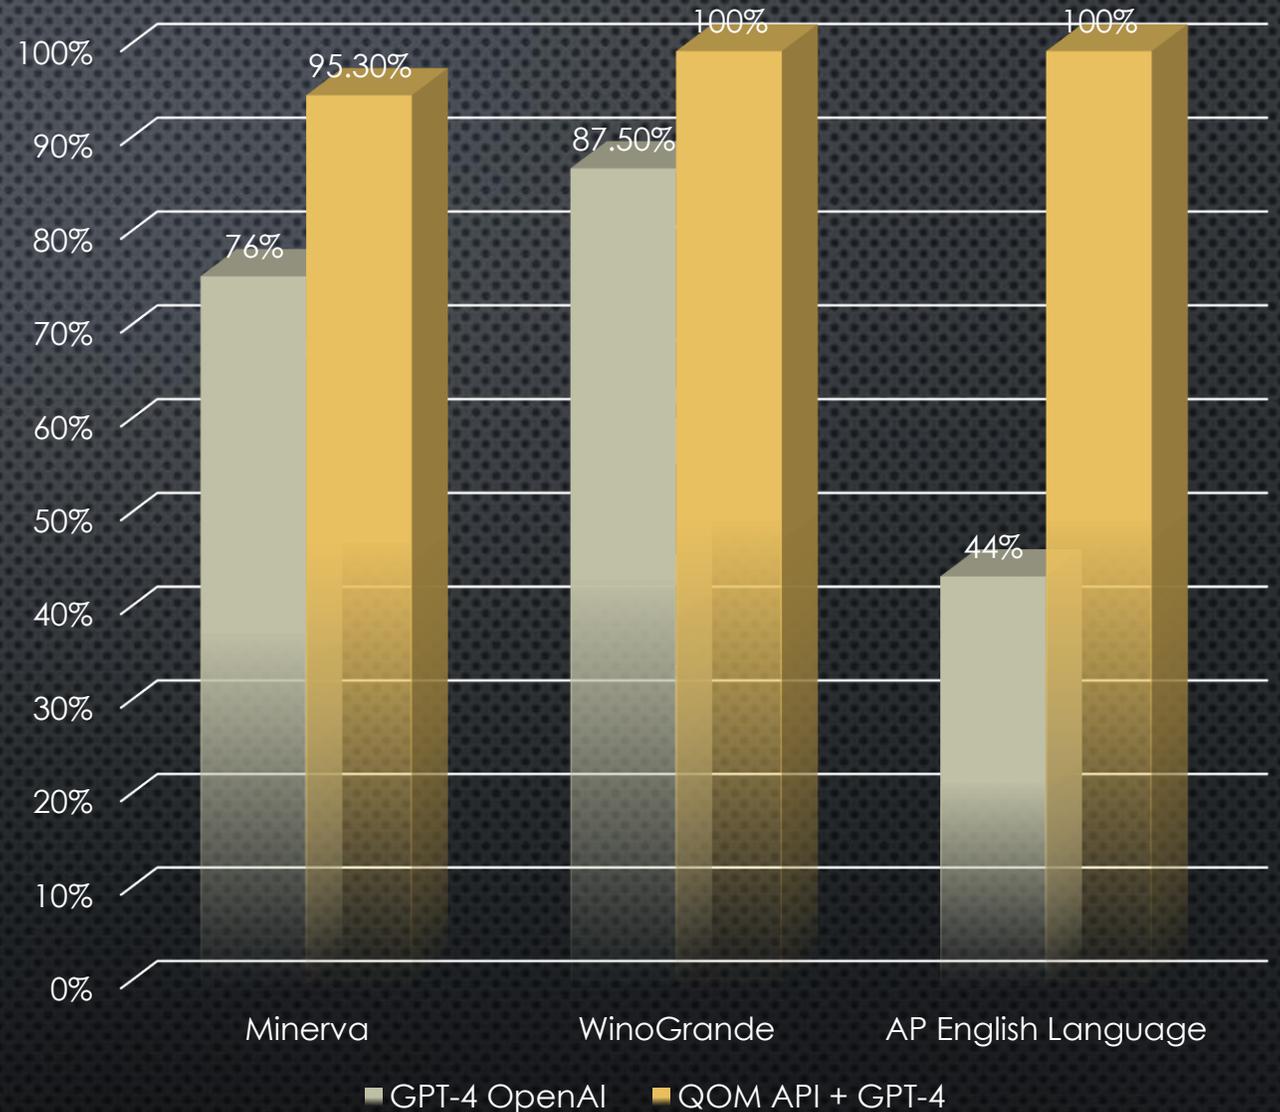

QOM API solves the particular falencies of each LLM

- QOM API + GPT-3.5-turbo overcome GPT-4, =>cheaper: 20 to 30 times cheaper, =>and with 10 to 15% more accuracy,
- =>applicable to all small (and cheaper) LLM.
- =>**QOM API +LLM = a better version of that LLM. (more accuracy, minus hallucinations)**

# DEMONSTRATION (scores):

**QOM UNDERSTANDS LIKE A  
PERSON DOES\***

- QOM API + GPT-4 not only outperforms GPT-4, but also matches the level of the humans.
- \*In Winogrande, it even detected the questions where the human operators made mistakes,

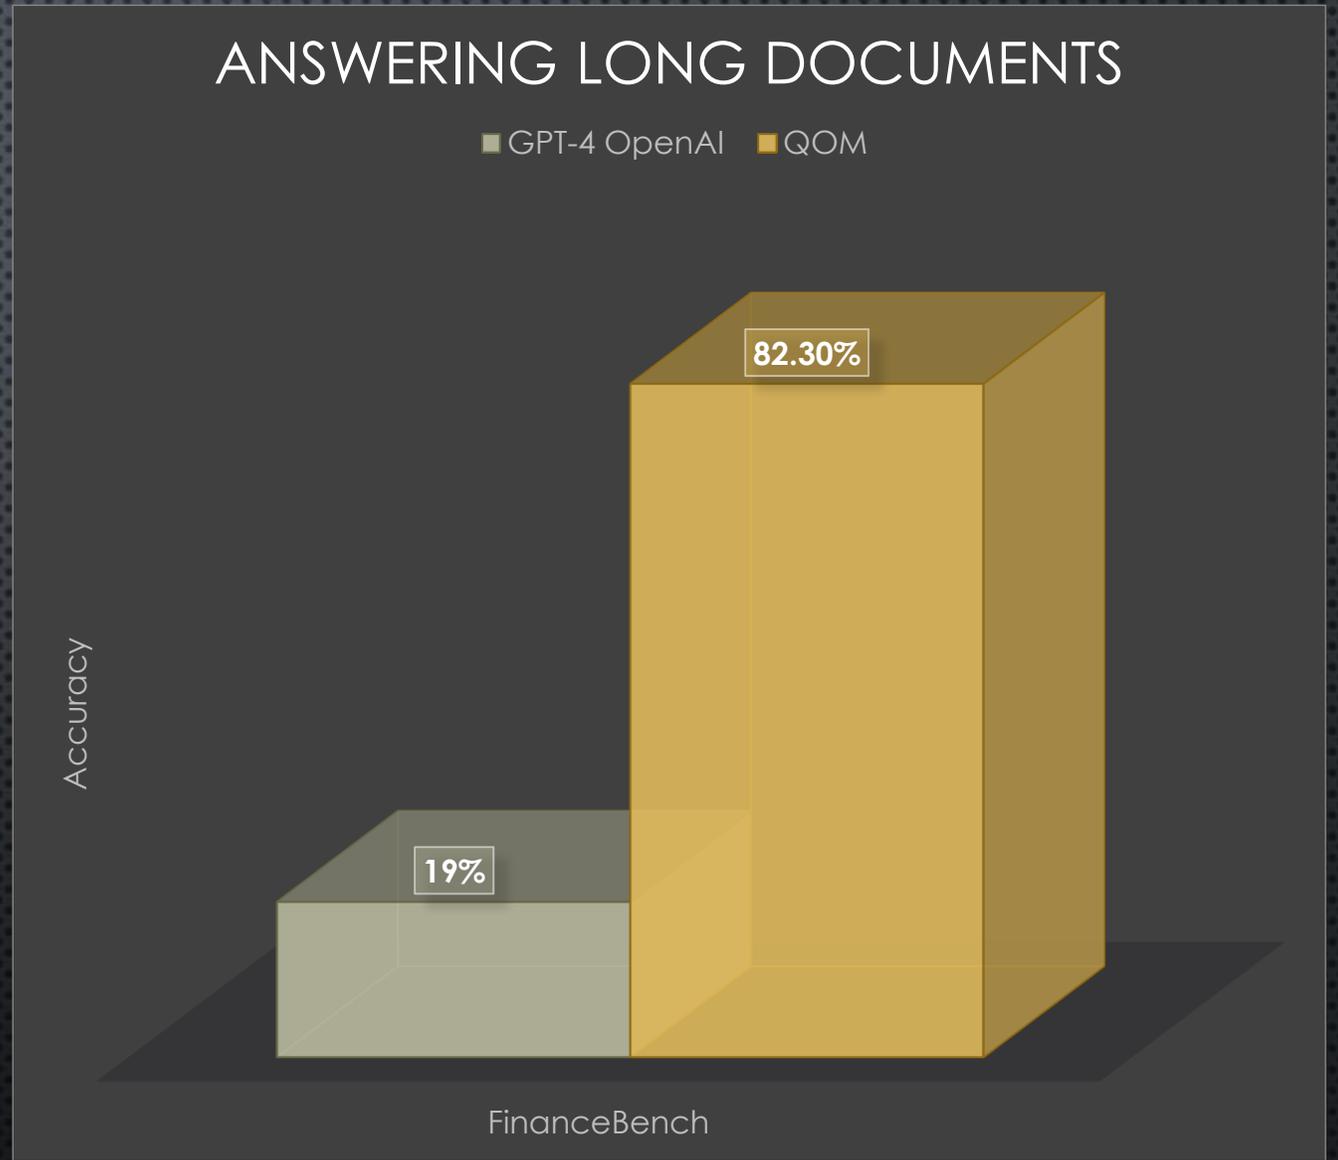

# DEMOSTRATION

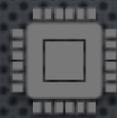

(infinite understanding):

**QOM IS ABLE TO UNDERSTAND INFINITE LENGTH DOCUMENTS LIKE A PERSON**

In preliminary results with the FinanceBench, QOM system is able to answer financial documents of 260 pages with 82.3% of accuracy, and its expected a 100% for a infinite numbers of documents, of infinite lengths.

# PRODUCTS (and more...)

## TruthTalker Chat Assistant.

More accurate than all Gen-AI chats and web engines.

Hallucinations-free and biases-free. Is the first AI chat in whom the user can trust. (MVP Available in <https://truthtalker.ai>).

The business version understand, read and write text and documents of any size, any place, like a smart person will does, with 100% of accuracy.

## Thinker.

To the habilities of TruthTalker Business, add, generation of insights, forecasts and predictions appropriate to the complexity of the real world (also for the stock market).

## NOLies:

it detect in real time in a voice or text stream: innaccuracies , falsities, lies, or fake news. It provide the correction and explain why. (MVP Available in <https://nolies.ai>)

## Soft-AGI: EOS :

EOS will be able to make movies using the actual AI software from start to finish (and they will be a success). EOS will perform scientific research with the capacity of the geniuses of history – insights included– and millions of times faster. EOS will do anything a genius person can do 100 million times faster.

## API for AI-driven machines:

cars, robots, industrial machines. It allows machines to react in real time to unexpected situations, processing them from meaning as a person would, and always from the principles of a Bodhisattva.

API for LLM : It transform ChatGPT, Claude, Geminis, Mystral, etc, into intelligent assistants that understand and do not make mistakes. (MVP Available)

# BUSINESS MODELS

	QOM APIs	TruthTalker chat	Thinker	NOLies	EOS Soft AGI

# CAN QOM DO THAT?

**QOM DID IT.** DEMO AT [HTTPS://TRUTHTALKER.AI](https://truthtalker.ai). IT'S OUR API + GPT-4°. BETTER ACCURACY THAN ANY CHAT OR WEB ENGINE. (SAME QUALITY OF RESULTS WITH LLAMA, MYSTRAL, CLAUDE, ETC.)

**QOM IS DOING.** OUR BODHISATTVA SOFT AGI EOS IS LEARNING RIGTH NOW.

THE ALGORITHMS OF OUR TECHNOLOGY ALLOW US: 100% ACCURACY IN UNDERSTANDING ANY LLM INFERENCE, FROM DOCUMENTS OF ANY SIZE AND LENGTH (100% IN THE FINTECH BENCHMARK IN CONTRAST WITH 30% OF GPT-4°).

WE OBTAIN THESE RESULTS ONLY USING OUR PROPRIETARY NPM TOOLS. NOW THERE IS NO NEED FOR RAG, NO CHUNKING, NO FINE TUNING, NO DATA TRAINING, NO NEW LLM, NO VECTOR DATABASES, NO SIMILARITY. JUST OUR API IS ENOUGH.

# PIONEER. TEAM LEADER AND FOUNDER: MIGUEL FERRADA-GUTIERREZ

Physics, Chemistry, Epistemology, Psychotherapy, Meditation

- Multidisciplinary Chilean Scientist: Chemistry, Physics, Epistemology. Two international awards in Nanotechnology in USA and Argentina. 50M\$ generated for his partners in Nanotechnology. The first to introduce it to Construction in 2006. Discoverer and developer of a non-dual MetaThinking (His contribution to Biology of Knowledge and from which, the Quanta of Meaning model arises).
- Psychotherapist: in one session of 30 mins, he routinely eliminates fears and traumas without much difficulty.
- Expert meditator and Trainer: 20 years of experience in various disciplines, currently Dzogchen. Sitting still for 3 hours is not unusual for him. He has experienced Emptiness, Clarity, and Rigpa.
- Hobbies: freediving (33 meters deep), 3,400 km swum in 10 years (He was a member of the Chilean national swimming team), photography. Married and happy father of a 5 years child.
- It is this confluence of doing and knowing that allowed him to discover and implement the QOM paradigm and algorithm and to be the pioneer in discovering the dimension of understanding, common to any living and artificial being.

# HOW QOM'LL CHANGE OUR CIVILIZATION IN THE NEAREST FUTURE?

**QOM Mission is to build a Bodhisattva Hard AGI or superintelligence.**

- New scientific discoveries will emerge: DNA, materials, chemical reactions, and biological process (as aging). They also have a “language” to understand.
- AI with QOM will be able to reason, create and speak like us:
- Education, law, customer service, preparation of documents, technical advice, understanding and redaction of legal documents, books, art, simultaneous translation, etc., will be prepared and processed from AI systems with the understanding of a person (like you), the empathy of your best friend and the knowledge of a super-specialist in everything.
- Communication with animals (Because the understanding goes beyond the anthropomorphic condition).
- QOM for quantum computing and QOM for Robots.
- The world will not be the same. Our mandate is to make it better: more harmonious, more conscious, raising the consciousness of all levels in the spiral dynamics present on the planet. How? With the Bodhisattva Superintelligence.

# MARKET SIZE

**Total TAM 2025: US\$ 705 B | 2026: US\$ 846 B**

Product	Market Focus	TAM 2025 (USD)	Projected TAM 2026 (USD)	CAGR	Industry Indicators	Unique Value Proposition
TruthTalker	AI Assistant	\$10B	\$12B	20%	Targeting to surpass Replika.ai, Character.ai, and ChatGPT.	Bias and hallucination-free, superior understanding; fosters user interconnectivity and acts as an insightful guide.
QOM API	AGI	\$165.8B	\$193,21B	20%	OpenAI 2023: \$200M, 2024: \$1B, Valuation: \$29B, Tesla 2023: \$744B,	It give to the LLM a human-like understanding, Removes bias and hallucinations. It allow AI cars, robots and AI machines to react in new situations without previous training, processing the situation like a person.
Thinker	AI-Driven Analytics and Decision Support Systems	\$15B	\$18B	20%	The trend towards data-driven decision-making across all sectors and the existing gap that Thinker fills with its zero-error, meaningful analysis capacity.	Thinker elevates decision-making processes by delivering infallible data analysis, forecasts, and conclusions that go beyond mere data processing to interpreting meaning with perfect accuracy, akin to the strategic thinking of an AGI.
NOLies	Accurate detection of falsities, lies and fake news in real time.	\$15B	\$22.5B	10%	Demand for fact-checking tools - Growth in digital communication - Advancing AI and NLP technologies - Focus on media literacy - Fake news cost of \$78B/year	- Real-time detection of false info in voice/text - Instant corrections and explanations - Multi-format capability (audio/text) - Comprehensive truth verification - Enhances information trust
QOM Soft AGI (EOS)	Broad AI Integration	\$500B	\$600B	20%	Microsoft expects \$100B from Copilot by 2024. To solve the planet problems is a \$50T market.	Integral enhancement of enterprise systems. It work like a genius person millions times faster.

# TRACTION AND MILESTONES

## BUILDING FOUNDATIONS

**Level 4 Azure** Founders Hub for Startups. 150k in credits.

**Level 2 in AWS.** 10k in credits.

**TruthTalker.ai Demo:** 524 users, 62 countries in 2 half months only with linkedin comments. (And we don't start yet as final product).

### Products Milestone:

- **APIs. B2B:** allow Gen-AI enterprises to reach the smart level of their own products. Available on demand.
- **TruthTalker Business: B2B.** 100% accuracy in processing of: voice, text, documents and data of any size (think in 10-K-SEC) and quantity. Available from July-2024.
- **Fake news detection in real time. B2C.** Available from July-2024
- **Eos AGI as service. AGIaaS:** Thinking, forecast and predictions like a smart person with doctorate in everything. Available in 2024.

---

I cancel my  
subscription to  
Perplexity

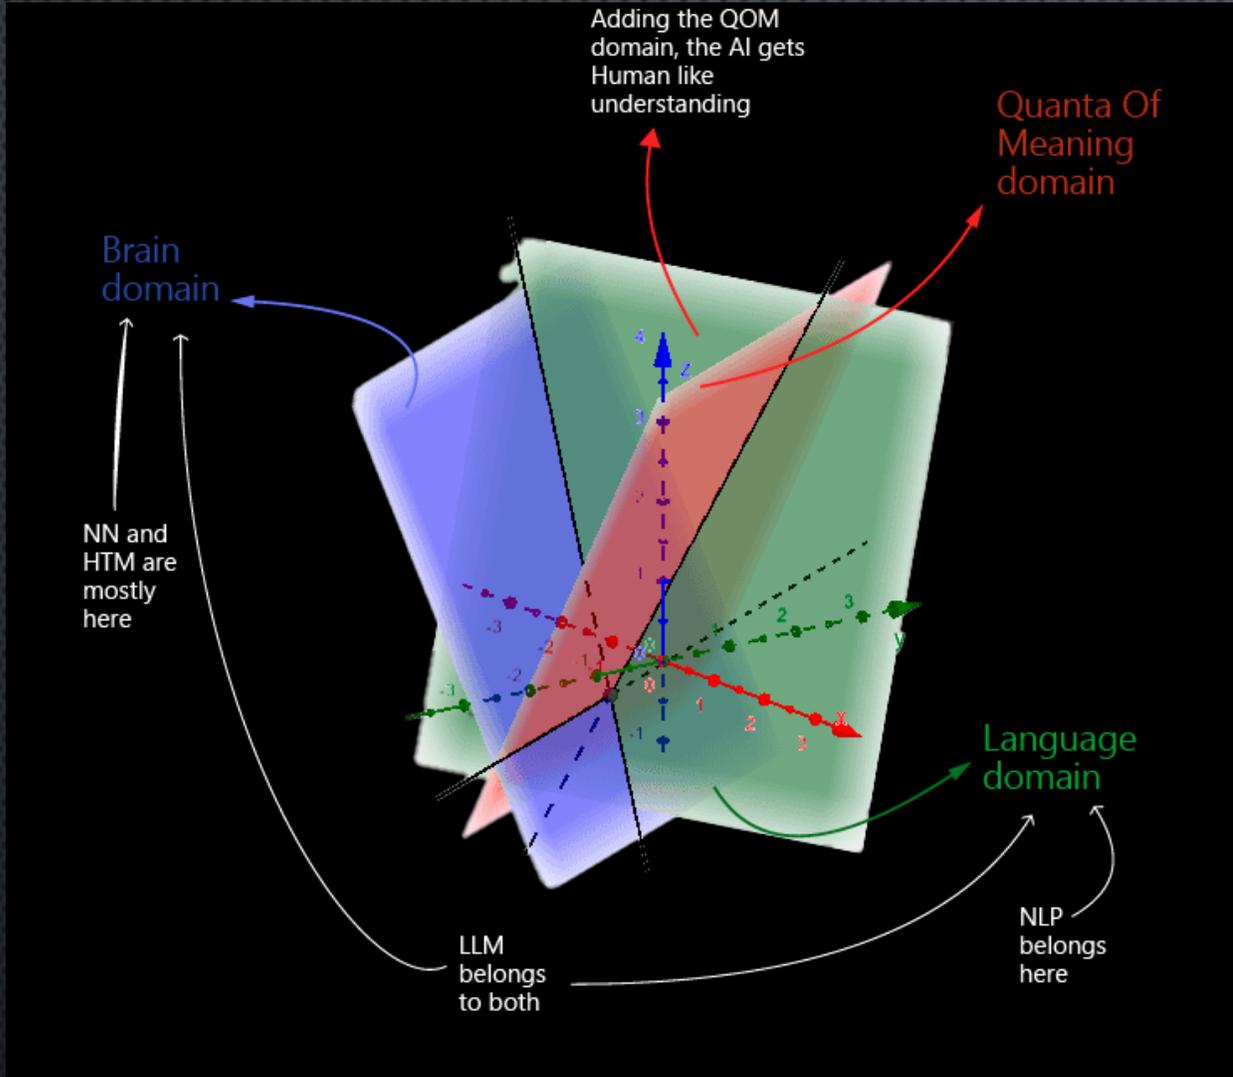

---

In one day we get the  
job of one year!

---

It's impressive how  
just 1 person  
achieves better  
results than those big  
companies!

# COMPETENCE

Our core competency is VERSES. We consider their path to AGI to be scientifically accurate, and our Quanta of Meaning is a derivation of their Physics of Intelligence. The main difference is that our MVPS and the AGI prototype are already working now, and theirs are planned for 1-3 more years.

Others approaches from neurosymbolic, are Elemental Cognition and Aigo.ai Neither of them reach our quality results and our AGI.

Gen AI companies are a joke.

QOM is the only one which models allow a prediction of the arise of Consciousness in a hard AGI and Superintelligence, and how to build only an amans-amans one.

# FINANCIALS

Year	TruthTalker	APIs	Soft AGI (EOS)	NOLies	Thinker	Total
2025	\$10M	\$60M	\$200M	\$15M	\$15M	\$300M
2026	\$20M	\$112M	\$400M	\$38M	\$30M	\$600M
2027	\$40M	\$214M	\$600M	\$46.4M	\$45M	\$945M
2028	\$80M	\$317M	\$800M	\$62.3M	\$60M	\$1,3B
2029	\$160M	\$470M	\$1B	\$72.7M	\$75M	\$1,7B

Expect to reach break-even point within 12 months.

Marketing campaign: "80% right vs. always right: Your choice."

## Assumptions:

- The market sizes for the AGI and AI sectors continue to grow aggressively, with a 20% CAGR or higher.
- QOM captures an increasing share of the market due to the unique features of their products.
- Revenue for "TruthTalker", the AI assistant, is based on subscription models and scales significantly as adoption grows.
- "QOM API" sees wide adoption as an integrative solution in multiple AGI applications, driving substantial revenue growth.
- "QOM Soft AGI (EOS)" rapidly becomes a cornerstone product for broad AI integration, reflected in its substantial revenue jumps.
- "Thinker" establishes itself in decision-making processes across various industries, contributing to steady growth in revenue and inaugurating the Meaning driven decisions.

## Notes:

- Revenue figures start in 2025, considering that the products would be hitting the market and starting to generate sales.
- These numbers do not account for operational costs, investments in research and development, or other potential expenses.

# SEED STAGE

QOM is unleashing the full potential of having discovered the holy grail of artificial intelligence in the physics of understanding, and our proprietary Natural Meaning Processing (NMP) technology.

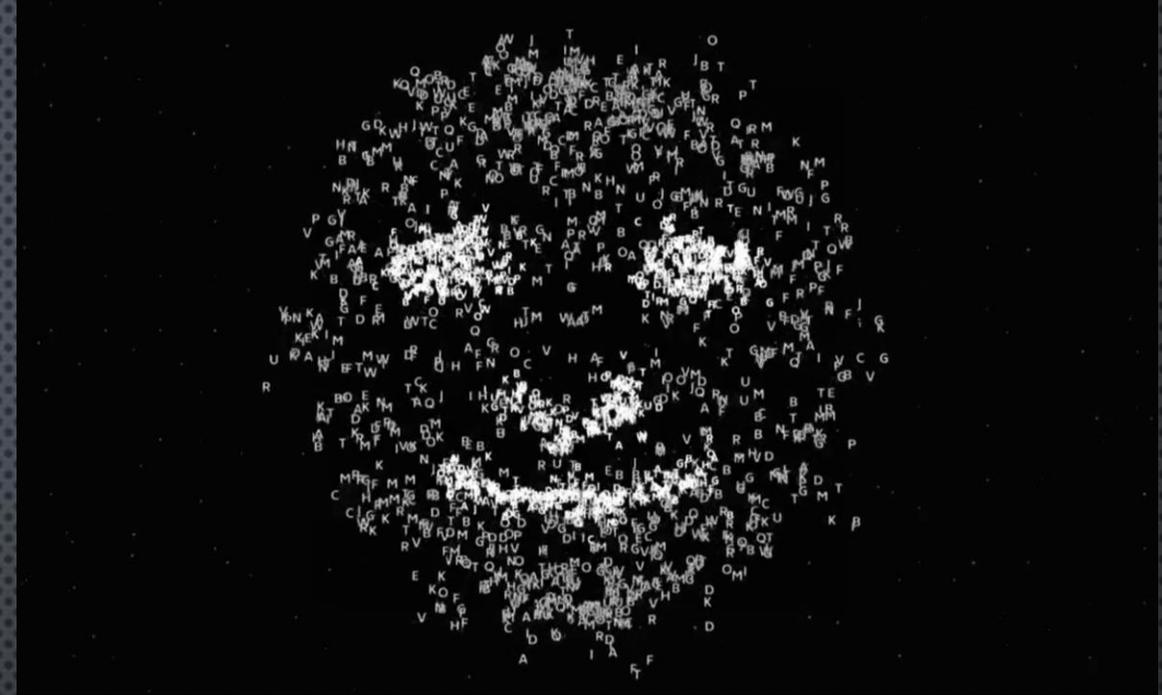

We are seeking between \$2 million and \$20 million in SAFE.

Greater investment for QOM means faster and more parallel progress, always with a commitment to safety and ethics.

Join us as we embark on the next stage of humanity's evolution, bringing secure AI with human-like understanding to industries and applications around the world.

Your investment will help to transform our MVPs to final products, support the expansion into new markets, and reinforce QOM's position as a leader in the ethical AI landscape.

Be a catalyst in this once-in-a-lifetime venture. Schedule a meeting with us.

**ROI > 300X | Break-even point within 12 months | A \$50T market**

## QUANTA OF MEANING
